Satellite tournament eligibility guidelines: The player is responsible for understanding their eligibility. It is each player's responsibility to notify the tournament director in any subsequent Jr. Satellite Tournament of any change in his/her eligibility status. If such notification is made prior to play, the player is entitled to a refund of any entry fee paid, or may request to be moved up an age division, if applicable.

1. A player must have never had a "final year-end OPEN ranking" in the top 50 in any age division (top 40 in the 10's) to be eligible for any satellite tournament in any age division. (Example, A player ranked #45 in the 12's may not "play up" in the 14's 16's, or 18's; he/she is ineligible for satellite play). This is a FINAL, year-end open published ranking, not a standing /seeding.
2. A player is not eligible for satellite tournament play when they have won a total of 5 (or more) satellite tournaments (with three or more match wins) in their playing career.
3. When a player earns 600 points on the Satellite Points Per Round Standings List, they must move up to the next highest age division. If the player accumulates another 600 points in a higher age division, then they can no longer play at the satellite level.

SCTA Satellite Master's Championships: Held each year, the Master's Championships is for all players who have won a Satellite tournament during the calendar year. Eligible players will receive an invitation from the SCTA office.
